ABOUT SGF-CYBERSECURITY WEEK 2023

The premier **SGF-Cybersecurity Week 2023** is the culmination of a number of Cybersecurity conferences, briefings, and webinars produced by Smart Grid Forums over the past few years. This week-long event brings together IT and OT cybersecurity colleagues together with their CISOs under one roof, for a thorough exploration of the evolving threat landscape, the organizational issues and challenges, and the technical prevention, detection and response solutions required to strengthen the power grid security posture and get the grid ahead of the threat in these challenging geopolitical times.

The week begins with a briefing on Risk Management and is delivered by a line-up of utility CISOs and their advisors. The main 3-day conference proceeds with morning plenary sessions tackling the big macro issues such as Regulatory Frameworks, Workforce Development issues, and Data Management priorities. The week wraps up with a future-focused workshop on Cloud Cybersecurity to help IT and OT cybersecurity colleague establish the business case and determine the best way to deliver safe and secure cloud and hybrid-cloud solutions across the power grid. Alongside the main conference is an Exhibition displaying 30+ state-of-the-art cybersecurity solutions customized to the needs of the power grid.

Drawing together 150+ participants, the audience is comprised of cybersecurity middle-managers and specialists, with a 50/50 split between utilities and suppliers. The geographical profile of the audience is 80% Europe, 10% USA, 10% ROW. The programme is extensively audience researched to ensure the timeliness, relevance and objectivity of discussions. The speaker line-up is utility heavy to ensure that the end-user voice is heard loud and clear and drives innovation and implementation priorities. Our audience generation process is carefully managed to ensure the optimal ratio of utility to supplier participants. All participants pay a premium ticket fee to attend, and we have a strict 'no-guesting' policy to ensure that we filter in only the most relevant and motivated cybersecurity decision makers.

This carefully curated approach ensures that as a sponsor you optimise the time it takes for you to filter the right participants into your business development pipeline. The week-long programme provides an environment where you get the opportunity to interact with the same individuals repeatedly through different sessions and environments, deepening your customer insights and strengthening your onsite relationship building. The facilitated networking sessions ensure that you are well supported in breaking through to deeper levels of conversation and connection, easing your post-event follow up process.

PAST CYBERSECURITY EVENT TESTIMONIALS

"Great opportunity to learn from others how they handle the common problems allowing us to find the most effective and efficient solution. This is added value at its best!"

Michael Knuchel, Head of SAS Engineering – **Swissgrid**

"It was a relief to realise that SGN are not alone in their struggle to implement IEC 62443 requirements. The delegates attending the event were incredibly supportive and patient."

Jayne Crowley, E&I Engineering Policy Manager – **SGN**

"This was a great opportunity to learn about the IEC 62443 concepts, controls and framework."

Anja Ivanovska, Info Sec Specialist – **EVN**

"Very informative to see how cyber-criminal activity is becoming very organised, which makes them even more dangerous."

John Milor, Cybersecurity Risk Consultant Expert - **Pacific Gas & Electric**

TABLE-TOP EXHIBITION FORMAT

Each exhibitor is provided with a table, 2 chairs, power sockets, WiFi access. Additional equipment such as screens, brochure stands, stools can be rented from the hotel or the event Audio-Visual supplier.

LIVE DEMO LAB ROOM

The Live Demo Labs take place in a board room situated within 2-3 minutes' walk of the main conference room. Each room is equipped with a boardroom table, 4-6 chairs, a TV screen, power point sockets, and Internet access.

Lunch and refreshments can be served in the Live Demo room or taken in the conference networking area with the other conference participants.

You will be provided with a schedule of pre-arranged meetings with the participants of your choice, who will be escorted to the room by SGF staff at the scheduled time, allowing you to stay in the room and focus on running the meetings without distraction.
